DEPARTMENT OF INTERIOR ARCHITECTURE AND ENVIRONMENTAL DESIGN

IAED 451 APPLIED WORKSHOP FOR IAED 6

Arda Erenel

‘Practicing Interior Architecture in İzmir ’

On 29 November 2013, a seminar on ‘Practicing Interior Architecture in İzmir ’ was given to 4th year students of Department of Interior Architecture and Environmental Design in the course of Applied Workshop for IAED. The seminar was given by founder of Erenel Interior Architecture, Arda Erenel. Erenel started his seminar by giving insights on his experiences in İzmir. Than he talked about potential problems that our students may face after they start working, how they can solve these problems, how they can defend their rights and the main principles that they should remember while they practice interior architecture. Erenel finished his seminar with examples of his own work and answering questions of our students. This was a very beneficial seminar for our students since they had the chance to see the situation and possibilities of interior architecture in İzmir.
