

DEPARTMENT OF INTERIOR ARCHITECTURE AND ENVIRONMENTAL DESIGN

“İZMİR ARCHITECTURE CENTER” TECHNICAL TRIP, 7 MARCH 2014

Department of Interior Architecture and Environmental Design arranged a technical trip to the İzmir Architecture Center with second year students for IAED 202 Design Studio II Course. During the 2013-2014 Academic Year Spring Semester students will be working on the projects titled “Loft House Design for a Couple“. Students will be researching the concept of Loft House and design the site for certain user profiles.

The instructors of the course, Asst. Prof. Dr. Deniz Hasırcı, Didem Özdel, İpek Kaştaş and Hande Atmaca, and 47 students joined the trip. Students took the measurements of the site and had the chance to collect information about the history of the building, the restoration project and the current use as İzmir Architecture Center. Following the trip, students presented the plans, sections and elevations of the project site along with a photo-analysis presentation.
