

This badge certifies that bearer has accomplished the following:

1. Raised awareness about a needs analysis process with students in a beginner level class.
2. Relieved stress among students by facilitating the acquisition process of the Italian definite articles, which are not present in Turkish grammar.
3. Accompanied students through an analytical method of observation and analysis of some morphologies, such as the difference between masculine and feminine articles, with the help of specific material created by the teacher.
4. Enhanced knowledge of the positive effects of observation, reflection, and feedback.
5. Stimulated inputs into intakes; intake as the part of input that stays in the stores of long-term memory.
