

24th January 2020
Competition deadline

5th February 2020
Award ceremony

Prize

Rossinavi will create a scale model of the project that will be promoted and disseminated by Rossinavi throughout 2020 at the trade fairs in which it participates.

Required material

1 multi-page pdf, max 10Mb containing the descriptive tables of the project (minimum 5 tables); 1 jpeg, whose resolution must be 1600 x 1200 pixels, which is representative of the project; 1 text-only Word file of up to 2000 characters containing the project description.

Theme

Development of the external lines and internal layout of a superyacht up to 500 GT. Design as a driving force for new solutions, new uses, new types with the possibility of using innovative materials and propulsion systems that may also be unconventional. The inclusion of ecological, environmental and eco-sustainable techniques and philosophies is also required.
