

ABOUT THE SCHOOL

Izmir University of Economics, which carries the status of being the first foundation university of the Aegean Region, became one of the most preferred universities in Turkey. It is located in Izmir, which is the third largest and the most Western-oriented Turkish city. Being established and supported by Izmir Chamber of Commerce with its 80 thousand members, the University provides strong relationships with businesses which create valuable opportunities for business engagement, practice-oriented research and consulting projects.

Since the establishment of IUE, Faculty of Business offers a wide range of undergraduate programs including Economics, Business Administration, Logistics Management, Political Science and International Relations, Accounting and Auditing, International Trade and Finance. In Graduate School, we also offer masters and Ph.D. programs such as Executive MBA, MBA, Financial Economics, Logistics Management, Political Science and International Relations and Sustainable Energy (<https://lisansustu.ieu.edu.tr/en>).

We are dedicated to scholarly excellence. Our faculty is exceedingly productive in terms of research; publish their work in highly reputable international scholarly journals and present at prestigious academic conferences. In addition to creating knowledge with scientific research, our faculty is very active in creating impact through transferring scientific knowledge to private and public enterprises and NGOs with applied projects.

ABOUT THE POSITIONS

IUE invites applications for 3 assistant professorships in the fields of Accounting, Economics and Finance. The appointments are expected to commence latest September 1, 2022, and the selected candidates are expected to relocate to Izmir.

IUE offers salaries and conditions that are competitive and in line with national standards (e.g., health insurance, academic travel support and publication incentives). The research environment is vibrant and teaching loads are attractive.

In the field of Accounting IUE is looking for candidates who have

- Ph.D. degree in accounting or a closely related field from a recognized institution,
- A strong research orientation demonstrated by capacity to publish in leading peer-reviewed journals (SSCI),
- Teaching experience in financial accounting, intermediate accounting, advanced accounting, and/or cost accounting in English at different levels (undergraduate and master),
- Desire to build and work in business networks to develop industry-oriented projects,
- Preferably experience in developing accounting course contents at undergraduate and graduate levels.

In the field of Economics IUE is looking for candidates who have

- Ph.D. degree in economics or a closely related field from a recognized institution,
- A research interest in industrial organization, quantitative economics and/or econometrics, (however, outstanding candidates in all fields of economics will be considered)
- The desire to contribute to teaching the quantitative economics and data analytics courses offered by the Department and Faculty.
- A strong research orientation demonstrated by capacity to publish in leading peer-reviewed journals (SSCI) and who would complement and extend existing teaching and research strengths within the Department of Economics (eco.ieu.edu.tr/en).

In the field of Finance IUE is looking for candidates who have

- PhD degree in Finance or a closely related field from a recognized institution, preferably in Quantitative Finance.
- A strong research orientation, demonstrated by capacity to publish in the high-quality peer-reviewed research publications (SSCI)
- Evidence of excellent teaching achievements in English at different levels (undergraduate, master and doctoral levels), including teaching ratings, and awards.
- Excellence in quantitative research methods with advanced software skills
- Proven teaching experience in finance or related courses
- Ability to merge theoretical knowledge with practical relevance and to build and manage relationships with practitioners (e.g., company-oriented research projects)
- Desire to collaborate in a collegial and dynamic research team.

The candidates will be expected to:

- Publish regularly in internationally recognized peer-reviewed journals
- Contribute meaningfully to the visibility of IUE in the media and the society at large
- Teach high-quality and innovative courses at undergraduate and/or postgraduate level
- Participate actively in service activities (e.g., supervise master theses, participate in student selection and recruitment, service in committees, representation of the school at events), in proportion with the academic rank
- Take part in the department's activities (e.g., research workshops, friendly reviews)
- Assume, when appropriate, academic responsibilities in program development or research

APPLICATION PROCEDURE

Candidates interested in applying for the positions should send their application via email to: ayca.erdem@ieu.edu.tr by stating which field they are applying to.

When applying, candidates will be asked to upload 2 separate documents:

- A cover letter
- In one single file: (a) a CV that includes a list of publications and the names and contacts of at least 2 referees, (b) a research statement that details research interests and pipeline, (c) a teaching statement that includes a list of courses taught as well as recent teaching evaluations (if available for the last 2 academic years)

The deadline for submitting applications is February 15, 2022. Candidates are strongly encouraged to apply as soon as possible because screening of applications will start in a timely manner and will continue until the positions are filled. Selected candidates will be invited for a preliminary job interview via video conference.
